Understanding the Dangers of Cesarean Birth
Making Informed Decisions

Nicette Jukelevics

This book made me want to stand up and cheer!

CHRISTIANE NORTHRUP, MD, AUTHOR, MOTHER-DAUGHTER WISDOM

...a tour de force...just what U.S. women need right now to protect themselves from skyrocketing birth interventions.

PEGGY O'MARA, EDITOR AND PUBLISHER, MOTHERING MAGAZINE

Essential reading for all women thinking of having a baby.

RUTH WILF, CNM, PHD, CIMS LEADERSHIP TEAM

Shocking. Compelling. Inspiring. I recommend it to anyone who is concerned about cesarean rates today and looking to make a difference for themselves or for their clients.

JESSICA KELLY-SHAIEB, JD, PRESIDENT, BIRTHNETWORK NATIONAL

This book should be required reading of all pregnant women in the U.S...uses the best scientific evidence to educate (women) to all of the reasons to say No to a cesarean birth unless a serious medical complication exists.

MARSDEN WAGNER, MD, MS, FORMER DIRECTOR OF WOMEN'S AND CHILDREN'S HEALTH, WORLD HEALTH ORGANIZATION

Combines top-notch scholarship with practical advice for consumers and health professionals...I intend to recommend this book not only to everyone I know in the birth activist community but also to the many women who...express their confusion and distrust regarding their obstetrician's recommendations about c-section and VBAC.

SUSAN JENKINS, JD, NATIONAL BIRTH POLICY COALITION

Well researched and easy to understand...it also demonstrates quite clearly that the Emperor has no clothes. Obstetrics in the U.S. is broken and the fix will come from women and their families, not the ineffective and self-protecting medical establishment.

GRETCHEN HUMPHRIES, INTERNATIONAL CESAREAN AWARENESS NETWORK

Book available from www.greenwood.com and www.amazon.com
